# PROBLEM STATEMENT

- Many students/job seekers struggle to showcase skills effectively.
- Traditional resumes lack interactivity and creativity.
- Need for a digital, interactive portfolio to stand out.

# PROJECT OVERVIEW

- Developed an interactive portfolio using HTML, CSS & JavaScript.
- Features : Slideshow navigation, animations, responsive layout.
- Objective : Present skills, education, projects, and career goals.

# END USER

- Students – for academic and career use.
- Job Seekers – showcase skills to recruiters.
- Recruiters/Employers – easy candidate evaluation.
- Academic Institutions – project and skill assessments

# TOOLS & TECHNIQUES

- **HTML5 - Structure**
- **CSS3 - Styling & Animations**
- **JavaScript - Interactivity & Slideshow**
- **Responsive Design - Fits all devices**
- **Google Fonts & Gradients - Modern look**

# PORTFOLIO DESIGN & LAYOUT

- Clean, modern UI/UX with gradients.
- Typography : Poppins font (professional look).
- Slide-based content navigation.
- Glow and transition effects.
- User-friendly and visually appealing.

# FEATURES & FUNCTIONALITY

- Interactive slideshow navigation.
